Wendover Air Force Base,
Administration ~~Office~~ BUILDING
(Building No. 2601)
HABS No. UT-125-~~BI~~ BI
Page 1

Constructed in 1944 as a "Mobilization" building, this office is essentially the same as buildings 2600, 2609 and 2610. It is slightly larger than building 2600, containing 2095 square feet and costing \$4,000. It served as the office for the administration of the hospital corps.

In physical description, this building has the same plan and appearance as building 2600, except for it being 25 feet by 83 feet, or about 13 feet longer than building 2600. This may accounted for by what appears to be an addition on the east end of the building. This structure has a shed roof and similar exterior materials to those on the main building. Otherwise, the exterior and interior furnishing of this building are the same as building 2600. The structure seems to be in sound condition.
